About Us

Neuronix is a leading provider of innovative telecom and financial solutions, offering cutting-edge products that integrate telecom billing, mobile payments, and communication services. Trusted by top brands, our solutions enhance operations and customer experiences. Committed to innovation and security, we drive the future of telecom and mobile financial services.

Business Benefits

-  **Fraud Prevention**
Proactively block identity fraud and account takeovers.
-  **Faster Onboarding**
Reduce verification time from minutes to seconds.
-  **Regulatory Confidence**
Stay compliant with evolving identity and data regulations.
-  **Operational Efficiency**
Lower manual workload and verification costs.

NEURONIX

Identity Verification Solution

AI-Powered Identity Verification Solution

Secure Identities. Trusted Access.
Seamless Digital Experiences.

Overview

NeuroID is an AI-driven identity verification platform that combines biometrics, document intelligence, and behavioral analysis to deliver fast, accurate, and fraud-resistant verification. It enables organizations to onboard users securely while maintaining regulatory compliance and frictionless experiences.

Use Cases

-  **Digital Banking & Fintech Platforms**
Secure and seamless customer onboarding for financial services.
-  **Telecom & SIM Registration**
Fast, compliant verification for mobile subscribers.
-  **Government & Digital Citizen Services**
Reliable identity verification for public services and citizen access.
-  **Enterprise Access & Workforce Identity**
Secure employee authentication and access management for organizations..

Key Features

-  **AI-Driven Identity Accuracy**
Advanced biometrics, document analysis, and behavioral intelligence for high-confidence verification.
-  **Frictionless User Experience**
Near-instant, automated identity checks reduce drop-offs and improve conversions.
-  **Compliance-Ready Framework**
Built-in KYC & AML screening aligned with global standards.
-  **Unified Identity Platform**
Seamless integration with CRM, onboarding, and fraud management systems.

Who is it for?

-  **Banks & Financial Institutions**
-  **Telecom & SIM Registration**
-  **Fintech & Digital Wallet Providers**
-  **E-commerce & Marketplace**
-  **Government & Digital Citizen**

Key Features

-  **Biometric Facial & Liveness Verification**
AI-based facial recognition and liveness detection to prevent spoofing and impersonation.
-  **AI Document Authentication**
Automated validation of IDs, passports, and official documents.
-  **Behavioral Intelligence Analysis**
Detects anomalies and suspicious patterns during user interactions.
-  **Automated Compliance Screening**
Detects anomalies and suspicious patterns during user interactions.
