Who is it for?

Broadcasters & Media Networks

Telecom Operators & ISPs

OTT & Streaming Platform

Content Aggregators & Studios

Enterprises Video Services

Why It Matters

- Unified OTT Operations**
Eliminates fragmented systems by managing encoding, streaming, analytics, and billing in one platform.
- Higher Viewer Engagement**
AI-driven insights enable personalized content and improved viewer retention.
- Content Protection & Revenue Security**
Strong DRM and secure delivery reduce piracy and protect digital assets.
- Scalable Monetization**
Simplifies subscriptions, ads, and partner revenue sharing across platforms.

NEURONIX

OTT Solution

VoD and IPTV Solution

Intelligent Streaming. Secure Content. Scalable Monetization.

Overview

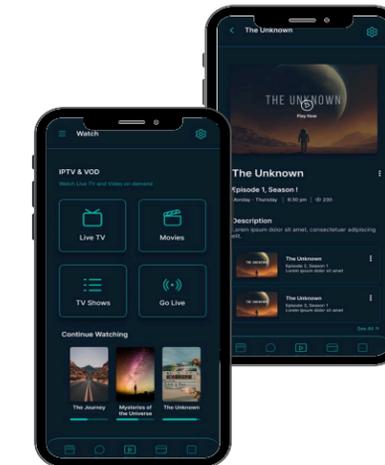

NeuroFlix is an AI-powered OTT platform that enables end-to-end media delivery from content ingestion and encoding to secure streaming and monetization. It empowers broadcasters, telcos, and content providers to launch, manage, and scale premium OTT services with automation, analytics, and global reach.

Business Benefits

- Fraud Prevention**
Proactively block identity fraud and account takeovers.
- Faster Onboarding**
Reduce verification time from minutes to seconds.
- Regulatory Confidence**
Stay compliant with evolving identity and data regulations.
- Operational Efficiency**
Lower manual workload and verification costs.

Core Capabilities

- Unified Infrastructure**
A complete OTT ecosystem covering content creation, delivery, analytics, and billing.
- Content Security**
DRM-compliant, secure content delivery to protect intellectual property.
- AI-Powered Insights**
Advanced analytics and personalization to drive engagement and retention.
- Efficient Partner Monetization**
Simplified revenue sharing and settlement across all content partners.

Key Features

- OTT Platforms & Streaming Services**
Scalable, secure streaming experiences.
- Telco-Led Video & SuperApp Ecosystems**
Integrated video services within SuperApps.
- Broadcasters & Media Networks**
Digital-first broadcast and distribution.
- Live & On-Demand Content Providers**
Seamless live and VOD delivery.
- Global & Regional Content Distribution**
Reliable content delivery at scale.
